Sub: Invitation letter for Two days Workshop cum students training on 'Number Systems to Assembly Language Programming@8085'.

Respected sir,

As per our telephonic conversation, we would like to invite you for the Two days Workshop cum students training on 'Number Systems to Assembly Language Programming@8085'. The workshop is scheduled for all UG and PG students of Physics. The said workshop is organized on Saturday and Sunday, 30<sup>th</sup> and 31<sup>st</sup> Jan. 2021 between 10.00 am to 1.00 pm in Online mode.

Kindly make it yourself convenient to conduct this workshop and train our students by explaining the necessary and important points / concepts related to the theme of the workshop.

Thanking you,

Yours sincerely,

Brief Report  
of  
Workshop cum Training for Students  
on  
**Number Systems to Assembly Language Programming @8085**

*Under the aegis of RUSA*

<b>Objective</b>	<p>Microprocessors and microcontrollers are very important in evaluation in digital electronics. These IC's are made up of the logic gates as basic building blocks. These are the programmable electronic devices which can be programmed for the specific tasks. These IC's plays very important role in Atomization in the industries which reduces the time, human work, cost of production and increases the accuracy in manufacturing of goods. There are different ways to program the microprocessor like by machine language, by assembly language or by high level languages like C, C++, Python, Java etc. by using microcontrollers we can control the electronic operations with very high precision. The current microprocessors are capable to operate at very high frequency and can process huge data within microseconds. Microcontrollers are the heart of instrumentation. They also plays crucial role in the development of medical field.</p> <p>The said workshop was organized by department of Physics, Rayat Shikshan Sanstha's Karmaveer Bhaurao Patil College, Vashi, Navi Mumbai on 30<sup>th</sup> &amp; 31<sup>st</sup> Jan. 2021 at 10:00 am. The workshop was inaugurated by welcome address by the Head, Dept. of Physics, Dr. V. B. Pujari. After Welcome address, Dr. Archana Chavan, introduced the speaker Dr. D. V. Kala and he took the charge of workshop.</p>
<b>Report</b>	<p>Dr. D. V. Kala is head of the department of Physics, Guru Nanak Khalsa College of Arts, Science and Commerce, Matunga, Mumbai. He is experienced professor in physics. He published number of book based on microcontroller and its programming. In this workshop he gives the lecture about the importance,</p>

history, basics and applications of microprocessors. He explained the number systems used in data processing in microprocessors. He also explained the detailed block diagram of microprocessor with individual block. We know that computer works only in binary number system i.e. "0" and "1". The set of eight binary numbers forms one byte word which is generally given in terms of hexadecimal number system. He gave some examples of simple mathematical problems and the hints to solve these problems with minimum number of instructions. Dr. Kala sir also solved some simple programs in assembly language in very simple way. He made this workshop interesting by interacting with students and solving their queries. He also gave some tasks to students for solving.

We the members of the KBP college, Vashi would like to express our gratitude to our beloved honorable Prin. Dr. Shubhada Nayak for her motivation, guidance, support and giving us this opportunity to conduct this webinar. With the vote of thanks by Mr. S.V. Haral this Workshop cum Training for Students on **Number Systems to Assembly Language Programming @8085** was concluded successfully.

<b>Outcome</b>	This webinar was attended by 101 participants from KBP College and other institutes. Participants discussed their queries related to 8085 microcontroller.
